

# Enhancing Healthcare Ecosystems with Interoperability

**Without  
Interoperability**

**80%**

medical errors  
involve  
**miscommunication**  
during patient  
transfers

**VS**

**With  
Interoperability**

**30-50%**

physicians report  
patient  
**communication**  
improved through  
**EHR**

**10-15%**

medical errors,  
despite quality care  
programs, cause high  
mortality rates

**VS**

**60%**

nurses say interoperable  
medical devices  
**reduce medical errors &  
save lives.**

**60%**

consumers lack  
**adequate patient  
data access.**

**VS**

**74%**

people believe  
interoperability  
provides **better  
data accessibility.**
