The 9th edition of the CII WR West Tech Summit 2021, Pune took place virtually on 25th November 2021.

The topic - 'Crafting Agile Factories through Technology & Innovation' - inspired intriguing discussions about a competitive, growth-oriented, tech-savvy and sustainable society on the horizon. During the roundtable discussions, the eminent speakers shared their views on numerous questions centred on:

- Micro Innovation Supersedes Macro-Innovation
- Ready, Set and Augment
- Tackling E-mobility with Human-centered Design

DOWNLOAD REPORT

QUOTABLE QUOTES FROM THE WEST TECH SUMMIT

MR BERNARDO CALZADILLA SARMIENTO
 MD Digitalization, Technology and Agriculture Business, UNIDO

“While it is important for organisations to be agile, it is more important for regulations to be agile to support the innovation.”

MR RAMANAN RAMANATHAN
 Former Mission Director, AIM Niti Aayog

“To recognise innovation, it is important to bring various stakeholders together. Without this, it is difficult for innovation to sustain.”
